

Honolulu FSDO presents:

# **Advanced Single Pilot Resource Management**

The purpose of this presentation is to enhance your ability to fully utilize all of the resources available to you when flying alone, or nearly alone. Topics included are error correction, avoidance, and prediction; and the identification of some not so obvious resources that you can use. In addition, we will differentiate between basic CRM and Advanced Pilot Resource Management

You will also participate in two experiential scenarios to enhance your communications and decision making skills.

A light dinner will be served. Please register ahead of time so we know how many hamburgers, chicken buckets, pizzas or bentos to get. THX

**Directions:** Lagoon Drive to Iako Place, first building on the left within the fenced area. FAAST presentations are held in one of the upstairs classrooms.

#### **A message from the National FAASafety Team Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
